Concept	The highly curated space is brimming with a rarified collection: Nymphenburg porcelain from Bavaria; Lobmeyr glass and crystal and Wiener Silber from Vienna; and Robbe & Berking silver from Flensburg, Germany. This graceful boutique, Benjamin , gleams with the quiet elegance of a salon, as refined as the wares it showcases. This Bluepoint Hospitality enterprise brings together manufacturers esteemed by the world's most discriminating collectors and households.
Venue	A foyer furnished with a handsomely appointed seating area opens on to a large space filled with Old World wonders: a pale blue chamber illuminated by French doors at one end and a fanciful vintage, crystal chandelier by Lobmeyr over a fully set table, where the scene is set for gracious dining. Custom cabinetry housing shelf-by-shelf displays of fine crystal, exquisitely hand-painted porcelain, and stunning biscuit-porcelain animal figures, faces a mahogany sideboard laden with breathtaking works of silver beneath a whimsical circular mirror. A fine oriental carpet softens footfalls, and unobtrusive curtains in a crisp taupe-and-white gingham complete the elegant design, letting the jewel-like collection of table ware and decorative <i>objects</i> take center stage.
Parking	Free street parking is available on Federal Street or in the municipal parking lot on West Street.
