

Kendall Moore, General Manager
Seasoned Manager Arrives at Red Pump Kitchen

Luxury Hotel and fine properties collection, **Easton Porter Group**, is pleased to announce **Kendall Moore**'s arrival as general manager of **Red Pump Kitchen** in Charlottesville, Virginia. Kendall first joined the Easton Porter Group as the general manager of **Zero Point Restaurant & Bar** in Charleston, South Carolina. There, Kendall and his team earned impressive accolades including the *Conde Nast Traveler* award for Best New Food Hotel, *OpenTable*'s Diners' Choice Award as one of the Top 100 Restaurants for Foodies in America, and was featured in *Town & Country* as one of the Ten Most Classic Charleston Restaurants.

A native of Charlotte, North Carolina, Kendall began working in restaurants in high school, starting at the nearby Campania Café. Since his early beginnings in the restaurant industry Kendall has worked in almost every position, in the front and back of the house, allowing him to provide each guest the best possible experience. Behind the bar, Kendall is known as a cocktail master true wine aficionado – writing esoteric wine lists that focus on impressive, respected producers from lesser-known areas of the winemaking world.

"Red Pump Kitchen is a beautiful restaurant with such a driven team of people that diligently strive to present the best culinary program in the region. I am exhilarated to contribute my knowledge and expertise to the beverage and service aspects of the restaurant and assist in elevating its reputation amongst some of the most sought after restaurants in Charlottesville," says Moore.

At Red Pump Kitchen, located on the historic Downtown Mall in Charlottesville, the artisanal menu showcases house-made pastas, gourmet pizzas, and seasonal dishes inspired by local Virginia farm partners. Each dish may be paired with a selection of carefully curated wines and handcrafted cocktails. The interior holds an airy, rustic European atmosphere illuminated day and night – from sunlight pouring in through the open front-façade of the corner location or from the soft evening glow of candles atop live-edged wooden tables.
